• When Parablu sets up your organization's Bluvault account, they'll make an Administrator login ID.

#GetStarted

- Parablu will use the email of the person who signed up for the service.
- An email with temporary login details will be sent to this Administrator.
- The email will also contain details for accessing the BluVault Administration Portal.

	Login - Enter your credentials below for the Cloud Name: etisalat Password		
etisalat ^{br} e&	Enter One Time Access Code sent to the registered Email address - Resend One Time Access Code 156780		
	Reset My Password		
By using all or any portion of the software, you are agreeing to be bound by the terms and conditions of ou	ur End User Licensing Agreement and other policies which can be found under https://www.parablu.com/legal		
	@ Parablu Inc 2023		

- If you have received this email, congratulations! You are the Parablu Administrator for your organization!
- Use the temporary credentials to log in at the URL provided.
- Enter your email as the Login ID.
- Input the Password and MFA (Multi Factor Authentication) code from the email.

Password	
Re Type Password	
Enter One Time Access Co Access Code *	de sent to the registered Email address - Resend One Time
Enter One Time Access C	ode

- The first time you login, you will need to change the given temporary password.
- Create a strong password, input the MFA (Multi- Factor Authentication) code from your email and save it by clicking on "Save".
- After saving, an automatic logout occurs.
- Log in again with your new password.

Adding users for backup

List of Users Add Use					
Search for Users					
User ID 🔺	Policy	Last Modified Time	Action		
Add User					
@parablu.com	Backup	22-Apr-2024 11:45:53	Deactivate		

- Now Let's walk through how you add other users into Parablu for backup.
- Log in to the Portal using your administrator credentials.
- Click on "Add User".
- Enter the User's email address.
- Choose the policy as "Backup".
- Click "Save".

Enter Email Id	Backup 🗸	Save Cancel

- The email will guide the User on how to access the management URL & download the agent package.
- The User will also be instructed on how to run their first backup.
